

Davis' Political Bee Still Buzzing?

Students of Virginia Politics Already Looking Into the Future—Ex-Governor May Have Eye on Congress—Might Oppose Glass.

(By GEORGE H. MANNING.)
(Special to The Bee.)
WASHINGTON, Aug. 4.—With the Virginia primaries over and former Governor Westmoreland Davis overwhelmingly defeated in his contest with Senator Swanson for the nomination for the U. S. Senate, the students of Virginia politics are beginning to anticipate the future. Westmoreland Davis' ambitions and resources, it is predicted, will not permit him to remain long in the political background in Virginia. It is already forecast that he will within the next twelve months announce his determination to run against Congressman F. Walton Moore of Fairfax for the Democratic nomination for the U. S. House of Representatives in 1934 from the eighth district. Mr. Davis might take an even bolder step, however, it is believed, by running for the U. S. Senate against Senator Carter Glass, who comes up for re-election in 1934. Then there is also said to be a likelihood that Governor Lee Trinkle may run against Senator Glass in 1934. The fact that the governor would then have a year and a half of his term to serve might, however, block his ambitions in this direction. There is a precedent for a governor of Virginia running for the U. S. Senate before his term expires and without resigning from office. Senator Swanson did it when he stepped from governorship to the senate, but he had only a few months more to serve whereas Governor Trinkle would still have about 18 months to serve. It would give former Governor Westmoreland Davis a great opportunity to get in and win as the third candidate. He might repeat his success of 1917 when he gained election as governor after the machine and anti-machine fought each other to defeat for Lieutenant Governor Taylor Elyson and John Garland Pollard, respectively. It is likely that fearing a repetition of 1917 the friends of Governor Trinkle would not contest the election of Senator Glass in 1934 if there appeared any serious probability that former Governor Davis would also get into the race. Governor Trinkle won out so handsily last year that the governorship against the big fight that Harry St. George Tucker had in 1924 is likely that Governor Trinkle may wish to seize the chance to catch the opportunity while his popularity is at its crest to run for the Senate in 1934 rather than to go back to private life from the end of his term in 1930 when Senator Glass' term will again expire. The friends of former Governor (Continued on Page Nine)

American Legion State Convention

The annual state convention of the American Legion, for the Department of Virginia, will be held this year in Charlottesville, on August 24, 25 and 26. The full quota of delegates from each post, in addition to a large number of ex-service men are expected in attendance, and Charlottesville and the University are making large preparations for their entertainment. There will be many prominent men at the convention as the Legion's guests, among whom will be Senator Tom Heflinger, of Alabama, and well known leaders of the E. F. Complete list of the guests of honor will be made public at a later date. Arrangements have been made to show the convention to the University of Virginia, the home of Jefferson, and other points of beauty and historical interest. Among the features of entertainment will be a pageant staged in the Greek amphitheater, at the University of Virginia, by a group of young ladies from Mississippi State College, who have a national reputation for aesthetic dancing, and it is expected that the convention will be up with a large old fashioned Virginia barbecue.

Two Submit To Petit Larceny

Ben Dodson and Bill Bailey this morning submitted to charges of petit larceny in connection with the theft of a number of automobile tires and tubes several days ago and were fined \$50 and costs. A warrant against Charles Egan, a negro, was dismissed as it was shown that he was merely working under the men and felt forced to do as directed. J. Swearingen contended that he is not guilty, and declined to submit to such a charge and his case was continued. The four men were arrested several days ago following the larceny from the Piedmont Hardware company of several casings, tubes and spark plugs. The warrants originally charged grand larceny, but it was learned this morning that the amount of the goods did not exceed \$50 and the charges were changed to petit larceny and dispositions made as stated above.

IN THE POLICE COURT.
Jessie James, Nick Deaton, and Walter Wyatt, were fined \$5 and costs for creating a disturbance. Joe Adams, a police officer, was fined \$5 and costs for a charge of trespass on the Southern Railroad. The youths, who said they were from Hickory, were caught riding freight trains. H. A. Clark was put under a recognized bond of \$50 for his behavior as result of a charge of disturbance brought against him by B. A. Ray. Joe Arthur was fined \$10 and costs for creating a disturbance. He was fined the charge and when he said he would slap the next policeman who put his hands on him, an additional \$10 and costs fine was imposed for contempt of court.

Family United After 6 Years

Zenop Sarafian, of Richmond, Will Greet Survivors of Turkish Cruelty—His Wife Never Found.

Escaped From Turkey.
This was learned today through C. W. Hooper, regional director of the Near East Relief here, and through whose untiring efforts of the last few years the rest of the Sarafians have been united. For more than two years, Mr. Hooper has been in constant touch with the authorities in Washington and Beirut, an despite repeated discouragements, finally obtained permission for the poor woman to make the trip. Mr. Sarafian came to this country as a deck hand after escaping from the Turkish army, where he had been drafted as a servant, and, realizing the aid of the American authorities overseas. He came to Richmond and is the proprietor of two stores in the South Richmond at the present time. When the great deportation took place in 1915 the Sarafian family was living in the city of Marak, Kamah, not far from Erivan. Without a moment's warning the Sarafians were ordered to leave their homes and were ordered to take their savings in money with them. After months of travel during which many of the family died, they reached the city of Marak. Even in Ireland it has been revealed that the Sarafians were subjected to inhuman persecutions at the hands of the Mohammedan Turks. Mr. Hooper, after an interview with Mr. Sarafian, said: "The Armenian women were carried off to Turkish harems, and while Mr. Sarafian was in service with the Turkish army his wife was abducted and has never been found, and his children were murdered."

World's Future None Too Secure

(By The Associated Press.)
LONDON, Aug. 4.—Sir Rider Haggard is of the opinion that western civilization is by no means so secure as many westerners believe. "We have an idea that the west is going on forever," he said, lecturing here last night at the Norwich Rotary Club. "But can we be quite sure of that? Those who have studied and know the east, its enormous power of reproduction, its simple habits of life on the land, and its system of marriage which make every woman think it her duty to have children, know that it contains an enormous potential power which must one day break out. "Whether it can be curbed I do not know, but I have grave doubts. I shall never forget my friend, Theodore Roosevelt, saying once to me, 'Look out for your Australia, it will be the first place to go.' Even in Japan, where the control of China the outlook for the western world will be very cloudy." The speaker said he thought our existing civilization is "in a very precarious position" and that other civilizations that had preceded it "Who would have thought a dozen years ago," he asked, "that there would be such horrors in the world as we have recently seen in Russia. Even in Ireland it has been revealed that the savage is uncommonly near the skirt of civilized man, and so all ways it will be."

Life Insurance—"Buy from Best."

PICNIC TRAINS IN COLLISION

At least seven people are believed to have been killed and more than a score injured when two C. L. & N. trains met in head-on collision near Cincinnati, O., recently. One of the trains was crowded with negro picnicers from a Cincinnati church. Rushing around a bend in the road, the engines were locked in death grips before either engineer could do anything to avert the accident. The locomotive of the picnicers' train was forced half way through the first coach, mangling many of the occupants. Picture shows firemen, policemen and citizens rescuing passengers and (inset) the two engine locked together by the force of the impact.

Bonus Seen As Aid To Plans of Wets

Revenue Problem Likely to Revive Liquor Advocates' Proposal for Sale of Light Wines.

WASHINGTON, Aug. 4.—Now that the question of raising revenues for the soldiers' bonus is once more entering into the consideration of Senate leaders, anti-prohibitionists are beginning again to scheme how they can use that measure as an entering wedge for the manufacture and sale of light wines and beer. Despite the fact that the Senate Finance Committee turned a cold shoulder to all such proposals in framing the bonus bill, spokesmen for the liquor interests in the Senate are being led to believe by surface indications that a tax on 3 per cent beer, for instance, would be a happy solution of all problems connected with raising revenue to pay the Nation's debt, to its former service men.

Amendment Considered.
Quieting sounding out sentiment in the Senate on that score the wet leaders are patiently abiding the time when they intend to come out in the open and demand modification of the Volstead Act. An amendment to the bonus bill it is understood is being considered by William M. Calder (R.), Senator from New York, member of the Finance Committee, which would pave the way for the return of light wine and beer. Wet leaders intend to take every advantage of the difficulties in which the Finance Committee finds itself in formulating plans for meeting the tremendous expense of the soldiers' bonus in response to Mr. Harding's demand. The proposal to tax beer is not new with Mr. Calder. He agitated the question before the Finance Committee in September of last year when the revenue bill was up for consideration and Republican leaders were at their wits' end to discover new sources of taxation. At that time the New York Senator proposed a tax of \$5 a barrel on 2.75 per cent beer and a tax of \$6.40 on all distilled liquor withdrawn from bond. He estimated then that a tax of \$5 a barrel on beer would produce at least \$100,000,000 a year, but this is purely hypothetical as he cannot tell how much would be manufactured or consumed. At any rate, a tax on beer or light wines would result in considerable sum sufficient in the opinion of wet members of Congress, to pay all the requirements of the bonus.

Gain Is Hypothetical.

Report Fighting In Indiana Field

(By The Associated Press.)
STACEYTON, Ind., Aug. 4.—First hostilities in connection with the taking over the mines by the state occurred today when pickets on guard duty were fired on from Ambush. The fire returned by the guards. Later firing being taken up over the entire area. This continued for over an hour.

Illinois Coal Situation Bad

(By The Associated Press.)
CHICAGO, Aug. 4.—The state of Illinois, restricted to its own supply of coal, faces a critical situation, according to Robert M. Nedell, state fuel director.

Liquor Concealed Under Mattress

A scheme by local police officers to land some unknown bootlegger, worked to perfection this morning when 5 gallons of moonshine whiskey were captured, and their man, Walter Dryman, placed under arrest. The raid was conducted this morning about 10:30 o'clock, the following officers participating: Sergeant J. L. Edwards, Sergeant H. T. Haraway and Patrolmen S. M. Heflinger, W. T. Kessler, Detective J. C. Lewis, and Garfield McCain. The police were convinced that whiskey was being handled freely in the neighborhood of Dryman on Chatham avenue near Schoolfield for some time. Time and time again they have conducted raids but all of them proved fruitless. This was explained because of the fact that while a raid was in progress, the bootlegger would hide in the neighborhood of Dryman on Chatham avenue near Schoolfield for some time. Time and time again they have conducted raids but all of them proved fruitless. This was explained because of the fact that while a raid was in progress, the bootlegger would hide in the neighborhood of Dryman on Chatham avenue near Schoolfield for some time.

This morning Sergeant Edwards and Haraway made plans for a simultaneous raid on three places, to be sure of getting their man. The eight officers set out in two automobiles. When the neighborhood was reached, they divided into groups and went to their given destinations. Sergeant Edwards and Haraway went to Dryman's house while the remaining officers divided up and went to two other houses, and the raids were soon in progress. Officers at Dryman's house soon found that they had the right place. Sergeant Edwards discovered a carton of whiskey in a corner but satisfied that this was but a small portion of the liquor the search was continued. Sergeant Edwards noticed that a bed appeared to be unusually conspicuous, owing to the extreme thickness of the mattresses. The mattress was raised and several rows of fruit jars, ten in a row, were revealed to view. In the row of the jars containing the whiskey, and then the ton mattress. More whiskey was found hidden in a smaller bed room. This was the first time that a large number of children's playthings and from outside appearance no one would dream that whiskey was beneath. The two automobiles could not hold the eight officers and the 57 gallons of whiskey and McCain was sent for another car and the three automobiles were soon on their way to the police station. Dryman is in jail but efforts are being made by him to secure bond, which was set at \$500.

Father Coming After His Sons Brokers' Firm To Be Established

A telegram was received this morning by Ensign C. R. Van Pelt, of the local Salvation Army, from Henry Sneed, of Tallahassee, Florida, stating that he would call in a few days for his children, John and Charles Sneed, who fell into the hands of the local organization late last winter. Mr. Sneed has wired transportation and other expenses pending his arrival. The Salvation Army took charge of the two small boys last winter, after they had been allowed to wander from a local family with whom they had been placed by their father. The boys were turned over to local persons to rear them. Thinking them in good hands the father went south. The boys were soon allowed to roam off and soon left their new home entirely. The father, who had been unable to locate his father until this morning when the telegram was received.

This is a grim and gloomy tale of the recent snowbound north. There isn't a dance hall or a quotation from Robert W. Service in it. I am a cheerful happy Alaskan, who loves the freedom found up here. All my days I have known the life of trading posts, danced at Thlinget Potlaches, sailed the waters of the North Pacific. I have searched for island gold—and found it, gone hungry and hunted my food. In this story I write of my own country and its people as I know them—not artistically, perhaps, but truthfully.

BARRETT WILLOUGHBY.

Negro Wields Gun To Menace Of All At Mt. Vernon Ave.

Policemen this morning were looking for John Bolling, a negro who at nine o'clock this morning is said to have fired six shots from a revolver at another negro both being engaged on street work where Mount Vernon Avenue runs into West Main street. The shooting was a menace to women and children alike in that neighborhood, one bullet penetrating the window-boarding of Mrs. Bowen's home. The name of the man who was the object of the fusillade was not learned, officers being too busy to take up the trail of Bolling who escaped soon after he had emptied his revolver. It seems that the two men had a quarrel early this morning and that Bolling left the street gang, went to his home and returned with the revolver. The foreman was in the act of telephoning the police when the shots rang out and created a good deal of excitement in the neighborhood. The negro aimed at was not hit.

Four Discussed For Council Seat

Interest again is beginning to focus on the man who will be elected to the council seat vacated by the late Mayor J. C. Owens. The man now being discussed in an informal way are Julian Jordan, Malcolm K. Harris, J. B. Ridenour and J. C. Ficklen. Both Messrs. Jordan and Harris served several terms in the council when it was a bi-cameral body. It is expected that the election will be gone into first thing on Friday night by the city council, and the man will be sworn in and will participate in the regular monthly meeting. Under the terms of a resolution which was offered by J. C. Ficklen at the meeting of the finance committee, members of the Good Government club when nominations were made for the council of nine, when vacancies occur they shall be filled regardless of the time of the vacancy, and insofar as the council is concerned and that the man for the vacancy be chosen according to his capacity. Some members of the council are said to share the belief that the city's representation should be scattered as much as possible in order that each section may be represented.

Swanson Gains In Official Vote Count

Senator Swanson's majority in Tuesday's primary is increased by 34 votes, Davis' vote reduced by four and Eugene Marshall's total vote cut down to 1,174. The official canvass shows: Swanson 2,232 Davis 652 Swanson's majority 1,580 Marshall 1,174 Talbot's majority 494 In the second ward Swanson polled 442 votes instead of 414 as first shown. In the fourth ward Swanson secured 615 instead of 611 votes. Davis polled 415 votes in the first ward instead of 128.

Drunk Ever Since Dry Law, Is Claim

NEW YORK, Aug. 3.—One of the longest sprees in history was attributed today to a former bartender, August Detering, by his wife, Rose, who told a Brooklyn magistrate her husband got drunk the day prohibition went into effect and had been drunk ever since. Before prohibition Detering never touched a drop, the wife claimed.

Where Did Booze Go Is The Query

To Add Rest Room In Court Chamber

Plans have been approved and an oil for the building of a rest room for appropriation made by the city councilwomen in the Corporation courtroom. City Engineer R. K. Linville will hasten the work in order that this much-needed improvement may be available by September, when the next term of court will be held here. The plan is to include a rest room and lavatory for women who are called on to attend court in the capacity of witnesses. It is proposed to convert a small room which is close to the prisoners' dock into the needed accommodation, with a separate entrance from the courtroom. The prisoners' dock will be removed, and placed close to the old fireplace. Mrs. Fannie Howard is largely responsible for the improvement. She addressed a letter to the council some time ago, calling attention to the fact that no provisions were made in the courtroom. It frequently happens that next few days at which time he will attend the court session. The additional room will be fitted up in such a way to meet every need.

Special Term May Be Convened Here

Judge Turner Clement of the Circuit Court is understood to have decided to call a special term of the Circuit court in Danville during the summer vacation. The judge will designate a juvenile justice for Pittsylvania and Danville conforming to the provisions of the law passed by the last legislature. There are several juvenile cases awaiting disposition and these will be taken up and disposed of during that term of court. Who the appointee will be is not known, but several men are being mentioned in the opinion. Magistrate J. W. Collier, of Chatham, is one, D. T. Williams, also of Chatham, has been spoken of, also Ben W. Dodson, of Bachelor's Hall. The office carries no stated salary but there would be fees provided in every case tried. Judge D. P. Withers has recently been disposing of such cases as came within the province of the juvenile court.

Home Is Sought For Little Girl

Ensign C. R. Van Pelt, of the Salvation Army, is looking for a home for a four-year-old girl, whose mother is gravely ill at a sanitarium, and whose father is dead. The child's grandparents are unable to care for the little girl, and it is desired to find a permanent home for her and her legal guardian. The Salvation Army is preparing for the annual outing for children of this city, to be held on August 15th. So far about \$50 has been subscribed towards this entertainment, more donations being required in order to make it a full success.

Will Fight Release Of Malone Woman

Aged Man Found Dying In Woods

The tragic death of Joseph East is reported from South Boston. Mr. East left the home of his daughter, Mrs. Sam Gull, near Halifax, to visit Mr. and Mrs. J. D. Epps, on the road between South Boston and Halifax. Several days later Mrs. Gull learned that her father had not arrived at the home he intended to visit. Some anxiety was immediately felt as Mr. East is over seventy years of age and a search was instituted for the aged man. The missing man was found in some woods not far from the home of David Webb in a deplorable condition, it being believed that he had been overcome by a stroke of paralysis. He had remained for six days without food or water and without any person knowing that he was there or ill. He was still alive when found but his condition was such that he died from the seizure and exposure the following evening.

Swanson Gains In Official Vote Count

Senator Swanson's majority in Tuesday's primary is increased by 34 votes, Davis' vote reduced by four and Eugene Marshall's total vote cut down to 1,174. The official canvass shows: Swanson 2,232 Davis 652 Swanson's majority 1,580 Marshall 1,174 Talbot's majority 494 In the second ward Swanson polled 442 votes instead of 414 as first shown. In the fourth ward Swanson secured 615 instead of 611 votes. Davis polled 415 votes in the first ward instead of 128.

Phoebus Town Council Has a Session to Find Out All About It—Many Questions Arise.

HAMPTON, Aug. 4.—The Phoebus town council in a stormy session last night started an investigation into certain reports and rumors around the town relative to the activities of the officers and the escape of a man named Reed from the Phoebus lock up a few nights ago. The session was called by the police commission an d was attended by councilman Clarke, Craig Snow, Smith, Copeland, Ritchie and Grant. Major Joseph E. Dixon, who was present, asked that Councilman Craig act as the presiding officer inasmuch as he is the head of the police department. The session was war riant from start to finish. The session was called to investigate the reports of how Reed escaped from jail, what became of 10 gallons of whiskey recovered from a man named Simpson and how the page of the record book in the police court was torn and destroyed at night.

Major W. L. Eacho, Mrs. P. J. Johnson and Mrs. Hellewell each testified that they were not given courteous treatment by Mayor Dixon when they appealed to him to assist them in breaking up the head liquor still. An affidavit was furnished to the council by R. L. Garbett, D. A. Anthony, C. H. McGowan and Dr. D. L. Lekites, declaring that they had heard D. E. Garbett say he had paid one of the police officers \$150. The man said he said his father pay the money to the officer. The session was an extended one, and it was finally decided to adjourn over to Monday night, when another investigation will be held. It is said that at the conclusion of the meeting a suggestion was made that Mayor J. E. Dixon and Town Sergeant George Lancer should resign ahead of the police department. Mayor Dixon and Mr. Lancer will be given full opportunity to answer all the charges and also to explain the reports relative to the features under investigation. It is believed that either Mayor Dixon or Mr. Lancer was paid by the money, but specially names one man who was on the force. An affidavit was also presented over to D. E. Garbett in which the latter absolutely denied that he had ever made any such statements of having given the officer the \$150. Phoebus is on the verge of a political fight for town officers, and the indications are that there will be stormy sessions of the council from now until the investigation has been concluded. The regular meeting of the council is deferred until next Monday night. Mayor Dixon and Sergeant Lancer have been in charge of the affairs of Phoebus for many years, and each of them declare that they are willing to have an investigation of their official acts.

County Authorities to Oppose Proceedings In Behalf of Lemap Witness—Police Seek Monteleone.

BALTIMORE, Aug. 3.—Habeas corpus proceedings brought by J. Abner Saylor, attorney, to have Carmela Malone, former friend of Bella Leman, who was murdered near Rolling road, Catonsville, July 13, released from Towson jail will be fought out before Judge Heister in City Court Saturday morning. "The clearing up of the murder is Baltimore county's job and the proper officers of Baltimore county are going to see this thing through to a finish," said C. H. Courtney Jenifer, State's Attorney of Baltimore county last night. "We shall be there ready to defend the State's course in holding the witness," said Mr. Jenifer. It is known, however, that Mr. Jenifer is determined to make a bitter fight against the method alleged to have been employed in an effort to get at a State's witness. Monteleone Sought. Police and detectives yesterday took up the trail of Joseph Monteleone, who is said to conduct a near-beer saloon at 1725 East Lombard street. It was through Monteleone and Mr. Saylor that the foundation was laid for the release of the writ. Failing to obtain the writ in the jurisdiction where the crime was committed, Mr. Saylor filed the writ before Judge Heister. "An attempt to take the witness from the bar is the worst move that has been assigned to the case before," a calculating move has been made. The woman, Mr. Jenifer declared, knew absolutely nothing about the move made by Mr. Saylor or Monteleone. Search for Monteleone yesterday failed to reveal his whereabouts. Arrest Worries Gang. From an authoritative source it was learned that Carmela Malone holds many secrets of the Water street gang of Fairmont. Since she was found near Uniontown, Pa., and brought here by detectives her arrest has been a source of consternation to the Water street gang and its accomplices. These accomplices stretch to many towns and cities. They work in the waves of the underworld. They were responsible, it is said, for the slaying of Carmela to the house in the woods near Uniontown the day following the murder of Bella Leman. Gas 27c. Schoolfield Furniture Co. adv. 3-4RAB

TREACHEROUS LOVE
BY BARRETT WILLOUGHBY

Starts Sunday, August 6th in THE DANVILLE REGISTER

TWO

JULY WAS RAINY AND CLOUDY WITH FEW CLEAR DAYS

Weather report for the month of July recorded and compiled by H. M. Watkins, for the weather bureau for the vicinity of Danville shows the month to have been an unusually rainy and cloudy one, with only 10 clear days. The temperature ranged from 58, the minimum on July 6th, to 97, the maximum on July 1st and 11th.

The average maximum temperature for the month was 80.3 degrees, and the average minimum temperature was 62.1, while the average mean temperature for the 31 days was 66.2. The month averaged 10.3 inches of rain, making the month altogether one of the most agreeable from a temperature standpoint in years, perhaps. On one of the 31 days the maximum temperature did not reach 90 degrees, while 52 on the 12th and 25th was the highest minimum temperature recorded. The highest sunset reading was 86 on the 11th and 12th and the lowest was 64 on July 4th.

The rainfall for the month aggregated 8.44 inches, making this one of the wettest Julys on record in any locality. The greatest rainfall in any one day was 2.63 inches on July 16th, while for the four days from July 16th to 19th, inclusive, the rainfall aggregated 5.32 inches, an unusual precipitation in mid-July. During the month there were only ten clear days, all the other 21 being recorded as cloudy or partly cloudy. The prevailing direction of the wind was from the south on 12 days from due south, 3 from the southeast and 5 from the southwest, five days from the west from the north and 3 from the east.

BARBECUE AT YANCEYVILLE

A barbecue and Brunswick stew will be held at Yanceyville, Saturday. There are several prominent speakers, including Dr. J. J. Joyner, of Raleigh, who are expected to speak on the cooperative marketing association. Several well known Kentucky speakers will attend the meeting and make talks on the marketing of tobacco.

In the afternoon a baseball game will be held.

T. J. Coles of Chatham was a visitor in Danville yesterday. He has just returned from a visit to Cincinnati, Ohio, the trip being made by automobile.

Pimples Keep Young Men Down!

They Make Women, Too, a Foul! How S. S. S. Stops Skin Eruptions Positively.

Pimples and skin eruptions have a price—your pay for every pustule, black-head and pimple on your face. Pimples produce the most powerful vegetable blood-purifiers. Your heart may be sold.

S. S. S. Will Rid You of the Crawling Pimple-Colony.

but who wants to kiss eruptions? Pimples don't look like the owners of anything. Pimples, women, too, are pimples, and see prospects and power. Young men and women, here's the positive way out. Physics and purgatives will fail. What you need is a scientific blood-cleanser. S. S. S. is one of the most powerful destroyers of blood impurities. You can prove this in a short time. S. S. S. has been passed on by a jury of millions of people just like yourself. It is considered one of the most powerful vegetable blood-purifiers and flesh-builders in existence. That's why you hear of so many underweight people putting on lost flesh in a hurry, why you hear of so many rheumatics being freed from their scourge, why S. S. S. Start today with S. S. S. and see your face clear and your skin get ruddier, your flesh firmer. It will give you a boost in your career. S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.

CAR STRIKE JAMS TRAFFIC

When the surface street car and "L" employees walked out on strike in Chicago, every form of locomotion obtainable was drafted into service to carry workers to and from their jobs, but autos predominated. Streets were so packed with machines that sometimes progress was at the rate of a black per half hour. The picture was taken at State and Madison streets at 8 a. m. Inset shows a group of girl workers on their way to the business district, merry and cheery, as were all the throngs, walking and riding, during the early days of the strike.

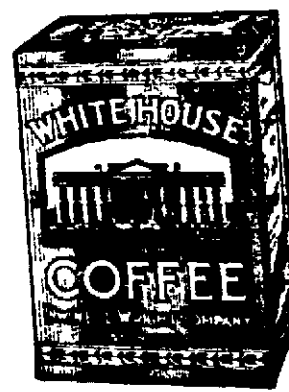

COMMANDERY TO HAVE A TEAM

At a well attended stated convocation of Dove commandery, No. 7, Knights Templar, last night in Pythian hall, the commandery took steps to ascertain how many of its members would like to participate in a competition for a prize open to all the Virginia commanderies on October 26th and 27th. It is contemplated to send a drill team of probably 25 men and officers to participate in a competition for a prize open to all the Virginia commanderies on October 26th and 27th.

The commandery also considered in some detail the matter of quarters in the new temple now nearing completion and finally designated the station officers as a committee to confer with the Masonic Building corporation and arrange for the use and occupancy of the asylum and armory on the ninth floor of the Temple. The commandery also considered the matter of securing estimates on the furniture, equipment and lockers for the use of the commandery will be prepared to make contracts as soon as the arrangements for the use of the temple provided in the temple shall have been closed definitely.

WILL ADOPT REPORT

LONDON, Aug. 3.—(By The Associated Press)—The House of Commons this evening that the government had decided to adopt a recommendation of the air ministry to provide 300 airplanes for home defense at a cost of 2,000,000 pounds sterling.

CHATHAM NEWS

CHATHAM, August 3.—Chatham today votes on a bond issue of twelve thousand dollars for street improvement with indications that the issue will be carried by a substantial majority. In the earlier part of the year a bond issue for thirty thousand dollars was lost by a large majority, this was to improve the water supply and the streets but the citizens did not take to the idea of improving the water supply, believing that with care in using water and enforcing the ordinance against waste, the supply was sufficient for a few years and thus far their belief has been sustained. On Wednesday afternoon a shower lowered the sweltering temperature several degrees and was of much benefit to the splendid crops which have been the best in many years. Fruits and vegetables are to be had in abundance and the busy housewives are making preparations for the winter season in canning and preserving.

Miss Annie Robertson of Danville, and Mr. Hiram D. Goodrich, of the county, near Danville, were quietly married recently at the Methodist parsonage, the Rev. Mr. Stevens performing the ceremony.

Work on the large priory building is now being pushed ahead, as is the work on the brick home of W. C. Coles on Main street and the nice bungalow to be erected by J. J. Motley on Lanier avenue. Several buildings are reported to be in anticipation of erection.

Mrs. Herbert W. Vaden and children, after a stay of several days at the home of G. H. Vaden, left on Thursday morning for their home in Newport News.

Mrs. Kate Ross, of Roanoke and Mrs. Elvin Smith, of Wilmington, Va., were recent guests at the home of R. B. Law, in West Chatham.

Mr. and Mrs. S. I. White and sons, Sandy and Burr left on Wednesday for a stay of three weeks in the mountains of West Virginia.

The Rev. and Mrs. R. G. McLees left on Monday for their annual vacation during the month of August. They will visit their old home in South Carolina, Montreat, N. C., and the southwestern part of Virginia before returning.

Mrs. W. P. Parrish and Mrs. H. D. Shephard returned this week from visiting their son and Mrs. Mickel, at Charlotte Court House.

The Garden Club was delightfully entertained by Mrs. James S. Jones at her beautiful home near Chestnut Level on Wednesday afternoon. After the business routine refreshments were served.

STARVES WITH \$37,000 IN POCKET

WEST PALM BEACH, Fla., Aug. 3.—Suffering from lack of nourishment, J. H. Smith was taken to a hospital Monday night where he died. Hospital attendants, searching his person, found in an effort to locate relatives, reported today they had found \$37,000 in cash in his clothes he had on when he entered the institution.

Tobacco Growers Will Open Their Houses Monday

(Special from Tobacco Growers' News Bureau.)

RALEIGH, N. C., Aug. 3.—The Tobacco Growers' Co-operative association will open its warehouses to receive the tobacco of its members next Monday, August 7, at every South Carolina and border market, according to today's announcement from association headquarters at Raleigh. Cash advances will be paid the growers' members at the 65 warehouses of the co-operative association.

The sales committee of the Tobacco Growers' Co-operative association has arranged with a committee of South Carolina bankers representing the banks which have offered loans to the association for cash advances on each grade of tobacco at figures satisfactory to the association officials.

These advances which the association will pay its members for each grade, will be posted at every association warehouse next Monday, when deliveries begin.

It is freely predicted that the association will secure better prices for its members than those indicated by the loan values placed upon the product by the bankers, for the big co-operative has the advantage of almost unlimited storage and drying plants to prepare a well graded product in quantities to meet the demands of the trade.

A full force of warehousemen, graders and bookkeepers will be at each association warehouse in the South Carolina belt to receive the first deliveries of the association will open only on Monday's, Wednesdays and Fridays of each week, in order that proper attention may give to each pile of tobacco, and all members be assured of a uniform grading.

Over 200 applications to join the marketing association, and requests to open the membership books from tobacco growers from all parts of South Carolina followed the first day of auction sales, which proved unsatisfactory to many growers throughout the belt.

Although no active campaign of mass meetings, like that which recently brought in 3,000 members to the association will be held, the co-operative warehousemen at every point in the belt will continue to receive new signers during this week.

No contracts for this year's crop will be accepted by the association after the opening of its warehouses next Monday. Farmers are strongly urged not to rush their deliveries to locate co-operative markets and not to bring tobacco in soft order.

Dissatisfaction with the opening sales on the auction floors and the application of hundreds of growers to join the marketing association indicates another head-on slide to the co-operative during the next two days like that which took place on July 31, when the active campaign for signers closed.

President Geo. A. Norwood of the association, who came directly from South Carolina to the Raleigh headquarters today, predicted that close to 1,000 more tobacco growers would join the association during the two days which remain for them to sign.

CASTOR KILLS SELF AND TWO OTHERS IN FIGHT WITH OFFICERS

SAN FRANCISCO, August 3.—Trapped by a police detective detail after he had been hunted throughout the country since early in June, Walter Castor, suspected of the murder of Mrs. Anna Wilkerson, shot and killed Detective Timothy Bailey, his sister-in-law, Mrs. Robert Castor, and himself in the home of his mother, Mrs. Minnie Castor, here today. Detective Ernest Cable, also fell with a bullet wound in his head as the result of Castor's murderous marksmanship, and was fighting death tonight.

DOG CARE AT \$15 A MONTH

CHICAGO, Aug. 3.—Mrs. Carrie Bashaw, who has charge of the three dogs which were left \$10,000 by the will of Mrs. Margaret Howard, has filed a petition in the Probate court asking \$75 a month for the care of the canines. She has had the care of the dogs since March, when Mrs. Howard died. By the will the \$10,000 is to go to the Arkansas Home for Children at Little Rock after the death of the dogs. Mrs. Bashaw's petition set forth that \$75 a month is a fair, reasonable and customary charge in Chicago for the support and maintenance of three dogs.

"These dogs are an awful care," said she today. "I have to give them baths and keep them in the house for fear someone will poison them. I have had to hire a woman at \$6 a week to help care for them."

Two alleged wills of Mrs. Howard figure in the legal battle, which is set for hearing September 25, when Mrs. Bashaw's claim will be considered. One of the wills favors the dogs, the other favors relatives of Mrs. Howard.

Mrs. Lloyd Butler, who has been quite sick, is much better.

Aid For Southern Roads To Keep Trains Moving

NEW YORK, Aug. 3.—As proof to President Harding that the railroad men are united in a determination to keep trains moving regardless of the shop crafts strike, several roads today pledged themselves to send crews of mechanics to the rescue of four Southern roads whose shops have been hard hit by the strike, it was announced by L. F. Loree, chairman of the Eastern president's conference.

Crews of "picked" men, recruited in shops of roads in the metropolitan district of New York, already are on the way south, Mr. Loree asserted. The first detail was said to be en route to Richmond, Va., where it was expected to arrive tomorrow morning.

Although they subscribed to the rejection of President Harding's peace plan when it came before the American association of railway executives, other lines are now contributing mechanics, "frankly disclosed their condition," said Mr. Loree. They were the Chesapeake and Ohio, Norfolk and Western Virginia and the Louisville and Nashville, it was disclosed.

Shipments of men were "assumed" by the Eastern leaders to be en route also from Chicago and other Western cities to New York, already are on the way south, Mr. Loree asserted. The present plan, it was said, was to send men to Richmond and Roanoke, Va., and Portsmouth, Ohio.

Union leaders at the Eastern strike committee headquarters tonight characterized this latest move of the roads as "another bluff to keep the president from interfering with their policy."

OLIVER—HONEYCUTT

CHAPEL HILL, July 30.—Thursday afternoon at Piney Prospect, near here, Miss Ethel, Morehead Oliver, of Yanceyville, and Robert A. Honeycutt, of Durham, were united in marriage by the Rev. Mr. McDuffie, of Orange county, performing the ceremony.

The wedding party met here at Pettigrew dormitory, of the University of North Carolina, at 5:30 o'clock Thursday afternoon and went immediately to Piney Prospect, a place known by all university students for its beautiful scenery. Here the party was met by Mr. McDuffie, who performed the ceremony.

The bride wore a dress of satin and georgette making a beautiful picture. After the ceremony the party went to the home of Mrs. R. A. Honeycutt, mother of the bridegroom, where a dinner was served.

Later the bride and groom motored to Durham.

Mrs. Honeycutt is the attractive daughter of Mr. and Mrs. G. W. Oliver, of Yanceyville. She was educated at Flora MacDonald College, and has been teaching school for sometime, having been a member of the Mebane High school faculty last year.

Mr. Honeycutt is the eldest son of Mrs. R. A. Honeycutt, of Chapel Hill. He was educated at the University of North Carolina. For some time, he has made his home in Durham, where he holds a position with the Southern Railway company. He has a large number of friends in every section of the state.

Dr. C. E. Harper and family with their guest, Miss Lyma Chalkley, are spending a few weeks at Central Academy, Patrick county.

Elder Wm. Monness will preach at the Primitive Baptist Church tonight.

WALTON CERTAIN OF NOMINATION IN OKLAHOMA

OKLAHOMA CITY, Okla., Aug. 3 (Associated Press)—Victory by a decisive plurality for Major J. C. Walton of Oklahoma City, anti-Ku Klux Klan and farmer-labor candidate in the three-cornered race for the Democratic nomination for governor in Oklahoma, was assured tonight on unofficial returns from Tuesday's statewide primary.

With but 705 out of the state's 2,827 precincts still to be heard from Walton had piled up a lead of slightly more than 25,000 votes over his nearest opponent, R. H. Wilson, state superintendent of public instruction, who received the backing of the Ku Klux Klan.

Both of Walton's opponents have conceded defeat.

The count from 2,132 precincts was Walton, 87,591; Wilson, 62,333; Owen, 48,771.

Mayor Walton will be opposed in November by John Fields, editor of an agricultural paper, the Republican nominee. Fields, who did not even make a campaign, still maintains a 12 to 1 lead over George Healey of Beaver.

The nomination of Mayor Walton, in the view of newspapers and political observers, was an overwhelming victory for the Roman Catholics of the state combined with the farmer-union labor element.

In a statement given today to the Associated Press the Rev. J. F. McGuire, chancellor of the Oklahoma diocese of the Catholic church, declared that the church in Oklahoma had opposed the Klan candidates in a spirit of self defense.

Six out of the eight incumbents in Congress including Miss Alice Robertson (Rep.), of Muskogee, apparently had been re-nominated. Manuel Herrick (Rep.), of Perry, flying congressman, was defeated by the Eighth district and Representative T. A. Chandler (Rep.), of Tulsa, forged ahead of G. B. Schwade, of Nowata, with returns from 136 out of 443 precincts in the First district tabulated.

STRIKE IS AVERTED

DETROIT, August 3.—(Associated Press)—Federal intervention today averted a strike of union vessel men on the Great Lakes, the district executive committee of the International Men's Union, voting to withhold the strike order until the department of labor had made an effort to adjust the wage differences which caused the strike movement.

SOLODAR WAS DROPPED HERE BY BRAMHAM

President Bramham dispensed with the services of Umpire Solodar here yesterday. Solodar was one of three officials here in yesterday's game, but as he confined his sphere of influence to that section of the playing field in and around third base, he had little opportunity to play his wonted aberrations that have played such havoc with Danville during recent games.

The new umpires here yesterday were Thomas and Harper. Both men gave evidence of knowing the game. Certainly, in yesterday's game they gave perfect satisfaction. Bramham watched yesterday's game.

PRIVATE OIL WELLS CEASE OPERATION

WASHINGTON, August 3.—Captain G. Shuler, in command of the marine detachment which was ordered to Wyoming to remove alleged trespassers from the Teapot dome oil reserve lands, reported to the navy department today that all private enterprise within the reserve had ceased and the oil well which was being sunk had been sealed. It was indicated that the marines would be ordered to return soon to Washington.

Miss Hilda Heister, of Winston-Salem, N. C., is visiting Mrs. A. T. Gunn.

Striking Craftsmen Will Meet Miller

Southern Railway May Make Peace With Men on Strike — Vice President Miller to Discuss Terms.

(By the Associated Press.)
WASHINGTON, Aug. 4.—Representatives of six striking shopcraft unions on the Southern railway will meet in Washington tomorrow with D. W. Miller, vice president in charge of operations of the system to consider proposals for a settlement of the strike on the basis suggested by President Harding to executives of all roads. The Southern, acting separately from other large lines has made no attempt to break the strike nor has that company refused returning strikers seniority privileges.

Disturbance Charge Is Aired In Court

A disturbance charge against C. W. Gilley, brought by Mrs. W. M. Styles, was aired in the police court this morning, which also revealed a long story of domestic difficulties between Gilley and his wife, and which resulted in Gilley being placed under a recognized bond of \$100 for his good behavior for 12 months.

Mrs. Styles, who resides next door to Mr. and Mrs. Gilley, charged that Gilley created a disturbance by the use of abusive language to her. She then related a story of alleged domestic troubles between Gilley and his wife. Mrs. Gilley admitted that she and her husband could not get along, and that he cooked his own meals, ate by himself, and roomed by himself.

The defendant then made his statement, and related what he termed to be the whole trouble. He made a number of charges against his wife, including taking money from him in large amounts, and with corresponding "an old man" in Henry county. He said he found a letter one day to his wife from a man. He said he went to the place and investigated. He inquired of an officer of the man's whereabouts, and found him. "I came to kill you," Gilley said he told the man after he had confessed writing to Mrs. Gilley. He said the correspondence had been going on for about two years. The witness said that he told the man that he would kill him but for his advanced age, and warned him that he would carry out his threat, should this keep up longer.

Victim Of Shooting Dies In Hospital

LYNCHBURG, Aug. 3.—William Jones, a white youth, who was shot Saturday afternoon in Twelfth street by a man still unknown, died at the Lynchburg hospital Monday night, being prevented by his condition after he was found to give a coherent statement about the shooting. Jones came here four months ago from Pantego, N. C., and had been working in a shoe factory, putting in extra time at night in a Main street cigar store. The police have been unable as yet to get the slightest clue as to the identity of the man who shot Jones.

Hamburg Merchant Would Boost Trade

(By the Associated Press.)
HAMBURG, Aug. 4.—Preparations for Hamburg's "Overseas Week" August 17 to 27 are rapidly going forward under a board of management comprising men whose activities are known throughout the world. The board includes such well-known persons as Wilhelm Cuno, managing director of the Hamburg-Amerika line, former Foreign Minister Walther Simons, and Max Warburg, international financier. "Overseas Week" will constitute an international economic congress devoted to a study of the reconstruction of Europe. Commercial representatives are expected from many parts of the world, as well as leaders in finance, shipping and transportation, industrial and technical trades, applied arts, medical science and hygiene, science and art. Opportunity will be given to inspect displays of goods, and to attend discussions of vital questions. Particular attention will be given to the means of re-establishing business connections destroyed by the war, and to steps for removing obstructions to international commerce.

Jap Prima Donna On Way To States

NEW YORK, Aug. 3.—Tamaki Miura, Japanese prima donna of European grand opera, sailed from Tokyo yesterday under contract with the Chicago Opera association and also under contract for a series of performances here with the Metropolitan Opera company.

Her husband, Dr. Miura, is reported as having applied unsuccessfully to the Japanese authorities to keep his wife in Japan or at least from traveling to America on the same boat with her Italian accompanist, Signor Franchetti. As a result, Mme. Miura has refused to permit her husband to come with her.

Two Boys Hunt For Pot Of Gold On Massanutten

WINCHESTER, Aug. 3.—Howard and John Grubb and Lawrence Luttrell left today for Lone Cabin, on the Massanutten mountain, where they will spend ten days camping. They will be joined at Strasburg by Maurice Miller, who is to act as guide. While there the boys intend to search for a pot of gold that is said to have been hidden somewhere in the mountain during the Revolutionary war.

COOGANS TAKE COURT ACTION TO STOP WAGGING TONGUES

Jackie Coogan leaving the court house in Los Angeles with "moodie" and dad, after "moodie" had been made his legal guardian.

BY JAMES W. DEAN

NEW YORK, Aug. 4.—Jackie Coogan's mother has been appointed as his legal guardian and his father as his official manager. Thus for the first time in American jurisprudence parents have applied for legal sanction of their guardianship of a child.

This action was taken to protect Jackie's daddy, and "moodie" from malicious gossip concerning the manner in which Jackie's money is being spent.

Hereafter the superior court of Los Angeles will be advised at regular intervals as to the amount of money Jackie earns, how it is spent and invested. Mrs. Coogan's bond was placed at \$100,000.

ARMED MOB, SEEKING MORON, STORMS NEGRO SETTLEMENT

NORFOLK, Aug. 4.—An infuriated mob of white men and boys, armed with shotguns, rifles and revolvers, and by nightfall 50 or more young men had joined Mr. Cuthrell and County Officers Carr and Wilson to assist in the man hunt.

When the pursuers reached Ivey's home they were informed that "Seven Years" had left the house a few minutes earlier. Then a systematic search of the neighborhood was undertaken. Nearly every member of the searching party was young, many of them in their teens. Threats of summary punishment were heard from many of the man-hunters. "I've seen a lot of you fellows here," one man carried a coil of heavy rope and there was no secret regarding its purpose.

The first ardor of the search worn off, a number of the man-hunters left the searching parties after a few hours of fruitless effort. But a small band of determined men kept up the quest until after midnight.

About 10 o'clock Sergeant Rawls, Sergeant Bates and a party of city police officers, learning of the excitement on Princess Anne boulevard went out to the rendezvous of the county and volunteer forces near Park and Princess Anne avenues to volunteer their assistance. They were informed by the county officers that the excitement was over and that their services were not needed.

Ivey, according to Mr. Cuthrell, had been employed at the dairy for several months. He recently came to Virginia from South Carolina. He has been living since entering Mr. Cuthrell's employ, with his wife in Bruce's Park.

Forego Elks Teeth Is Plea

WASHINGTON, Aug. 4.—(By The Associated Press.)—Don't buy elks teeth for watch charms, stick pins or other ornaments, is the plea of the Department of Agriculture for the price of each pair of such teeth is the price of a member of the country's small and fast-diminishing herds.

They are very pretty ornaments, and for many years have been used by Indians, especially the squaws, for that purpose; but the difference is that the Indians used only the teeth from animals slaughtered for food and their hides, while the white man kills the elk, extracts the two teeth and wastes the rest.

Thousands of bull elk have been killed in the Yellowstone Park region by hunters who illicitly poach upon the government preserves, and, despite the vigilance of rangers and guards, shoot down the elk in all seasons, merely for the teeth. The fashion of wearing these bits of bone as watch charms, cuff links, stick pins, and hat pins has been steadily growing as the once vast herds of elk dwindle and vanish and are threatened with entire extinction, according to the Biological Survey. The hunters receive high prices for the teeth.

A few years ago the wearing of ailettes for hat trimming threatened the annihilation of one of our most beautiful birds, but through aroused public opinion a halt was caused in time to save the birds. "Unless the market for elk teeth is curbed before it is too late, it is declared, it will mean the extermination of our elk, the most magnificent of deer. A fuller understanding of the history and price paid for elk teeth will have an influence in depreciating the market and thus removing the incentive for this wanton slaughter, the Department feels.

Caught Unloading Eight Gallons

Fred Presnell and Ben Elliott were arrested at 7 o'clock this morning in the act of unloading of removing from an automobile, eight gallons of liquor contained in 15 half gallon fruit jars. The car was standing in front of Presnell's home and the unloading process was under way when Police Sergeant Martin and Officer Bates arrived on the scene and took both into custody, also seizing the automobile and its cargo.

Tobacco Prices In South Carolina Beat Last Year's

KINSTON, Aug. 3.—The average price of nearly 20 cents a pound paid on South Carolina tobacco markets at Tuesday's opening in that belt exceeded the average paid here on opening day last year. It was stated by local tobaccoists today. This fact augured well for good prices here in the coming season. The eastern North Carolina crop is of superior quality and is better handled. Hunter Fleming, president of the Kinston tobacco board of trade, was on the Lake City, S. C. market Monday. He reported that prices ranged from two cents to 15, that medium and low grades sold well, and that the average of approximately 20 cents was more than twice as good as last year's opening price on the same market.

M. R. Grady, reported that the auction sales at Lake City Monday constituted a record, 650,000 pounds having been sold. His figure for the average price was considerably better than other reports indicated, being 21 3/4 cents a pound.

Predictions here for some time have contended for an average price of 30 cents at the opening of the eastern markets. Some tobaccoists have consistently warned against such a high average, however. Practically all reports received here from South Carolina indicated that the opening breaks were of poor quality. The eastern Carolina crop is also largely of inferior grades due to adverse weather conditions. Many Kinston warehousemen and others have been observers on the Palmetto markets and sports will remain in that state several days.

Dr. James T. Joyner, who headed the organization of the North Carolina tobacco growers for co-operative marketing and is now a high official in the organization, stated yesterday that the association was prepared to open its houses on short notice. The co-operative houses probably will not be opened until some time after the independent houses have started selling. He indicated belief that the organizationists will receive a better average price than the growers selling independently. The independent growers still retain two-thirds of the local market facilities as well as large plants at Greenville, Wilson and elsewhere.

Optimism was rampant on the local market today. Unless there is a drastic slump in prices eastern Carolina growers will make a good profit on their 1922 crop. It was universally stated. Many conservative observers urged that expectations be curbed to the point of reason, however.

Dr. Joyner appeared to be entirely satisfied with the situation. The co-operative marketing plan is to have its change to make good in this belt in a few weeks its success in Kentucky was cited by Dr. Joyner as ample ground for belief in its merits here. The organized growers of Virginia and the Carolinas, now numbering 80,000, constitute the biggest farmers' organization in the world.

Lativa Finds Her Navy Expensive

(By the Associated Press.)
RIGA, Aug. 4.—Shorn of naval power by the Washington conference, Latvia recently offered Latvia the destroyer Hassard as a present. She is over 200 feet long and makes 30 knots an hour.

The Latvian government made inquiries, however, as to the cost of operating a vessel of this type, and as a result of the information obtained it may be compelled to decline the gift.

CLERKS WILL ACCEPT ANY PLAN FOR A CONFERENCE
CINCINNATI, O., Aug. 3.—The Brotherhood of clerks will go along with any plan for a conference of the leaders of 12 railroad unions not on strike. E. H. Fitzgerald, president of the brotherhood of railway and steamship clerks, freight, baggage station and express employees, announced today.

Look For the Name—Remember the Number

SCIENTISTS TO RISK LIVES IN EXILE TO TEST EINSTEIN

BY GENE COHN

SAN FRANCISCO, Aug. 4.—The whole world of astronomical science is hurrying to remote spots of the South Seas and Antipodes where learned scientists will risk life and health.

To trail a beam of light! Two American expeditions already are under way, taking with them tons of the latest sky-searching apparatus and photographic equipment.

From Berlin is being rushed something absolutely new in telescopes, the work of years in the Zeiss laboratory at Jena, while a company of German and Dutch astronomers accompany it, headed by Dr. Joseph Hoppman. They are bound for a lonely spot on Christmas Island, in the Fanning group.

The Royal Astronomical Society of England is also sending its envoys to Christmas Island.

For Sept. 21 a total eclipse* of the sun will be visible over a narrow ridge 100 kilometers wide, stretching from Cape Good Hope in Africa, through the Indian Ocean, and on the northwest coast of Australia.

Selection of sites for this spectacle are limited, for the tests and photographs to be made in connection with this eclipse are like no other in astronomical history.

Test Einstein Theory
Why? Because the men of science are to put the Einstein theory of relativity to its severest test.

What this test will be was explained to NEA Service by Professor W. W. Campbell, of Lick Observatory, who heads the American expedition, just before he sailed. The American party will make its observations from the remote 90-mile beach on the north-west coast of Australia.

The thing Einstein has predicted," explains Professor Campbell, "is that during this eclipse certain stars oc-

MAP SHOWING WHERE SCIENTISTS OF THREE NATIONS WILL TEST EINSTEIN THEORY. BELOW, PROFESSOR W. W. CAMPBELL, WHO WILL HEAD ONE OF THE AMERICAN EXPEDITIONS.

cuping a position in the sky near the sun will seem to be displaced slightly away from the sun.

"Absolute proof of the theory can be secured only during a total eclipse of the sun, for under such a condition the light of the sun is hidden and it is then possible to photograph the stars in the sun's vicinity."

"What we are testing is one of Einstein's three leading deductions, which is that the rays of light from a distant star undergo a noticeable deflection as they pass near the sun. The coast of Australia for which the American scientists are destined is one of the most rugged in the world."

ENGLAND TO HELP CHINESE STUDENTS

LONDON, Aug. 4.—The Washington government for 15 years has been expending its share of the Boxer indemnity from China for the benefit and support of Chinese students in the United States. Japan has now come forward with a similar proposal and Great Britain may follow suit.

A departmental committee, of which Sir John Jordan, former British minister at Peking, is chairman, is considering the idea of Great Britain foregoing her indemnity installment due this year, provided China expend it for educational purposes at home.

The government is thought to be favorably inclined. Japan also has said she was prepared to forego her share of the Chinese money under the same stipulation.

There is no question of foregoing the right to the Boxer indemnity, either by Japan or Great Britain, and if the present proposals materialize the two governments would see that the money is actually used by the Chinese authorities for the stipulated educational purposes.

The Boxer indemnities were exacted in 1901 by the powers for the attacks in China in 1899 and 1900 upon foreigners and native Christians. A total of 11 countries, including Great Britain, the United States, France, Italy, Russia and Japan receive yearly allotments. The extinction date of indebtedness is 1945.

LETTY GIRL SHOWS WISDOM

SUNBURY, Pa., Aug. 3.—Missing her little daughter from her crib early today, Mrs. R. E. McPherson, Northumberland, hurried downstairs. She found the baby, naked, sitting on the floor lighting matches from a box. Numerous burns on the carpet indicated the mother said what might have happened, but the child kept on her flimsy cotton night dress. She attributes the fact that the child took to garments off as an act of kind Providence.

GIRL TELLS OF ATROCITIES IN DEVIL'S DEN, WHILE CAPTIVE

NORFOLK, Va., Aug. 3.—Atrocities alleged to have been committed against a 15-year-old girl while she was imprisoned overnight in a shack known as the Devil's Den in the rear of Virginia Avenue at Ocean View, constitute the basis of charges that have been preferred against John Murray, a 19-year-old youth who was arrested at Ocean View by Detective C. H. Burch and officials of the juvenile court at Ocean View Monday night. Warrants of a similar character have been issued against several other young men who were named by the girl in her recital of shame.

In connection with the same girl's downfall, John V. Holloway, 36 years old, and Miss Louise Hill, aged 21, have been arrested. Miss Hill, a waitress, is charged with contributing to the delinquency of the child, and Holloway is held on a warrant charging him with subjecting a minor to vicious and immoral influences. Holloway is alleged to have been in the girl's company after her escape from the Devil's Den.

The girl in the case was found in a dazed condition in Granby street near Charlotte street Saturday night by Traffic Officer Matthews and Small. She was suffering from self-administered poison. After she had undergone treatment at St. Vincent's hospital, she disclosed to Mrs. Van Dyke and Officer Burch, of the police department, and to officials of the juvenile court the experiences she had encountered since leaving her home in Brambleton last Thursday.

Her story involved alleged activities on the part of Miss Hill, Holloway, Murray and several other men whose names have not been divulged.

According to the girl's story, she was waylaid by Murray and several other youths in Ocean View, Friday night, and dragged into the shack known as the Devil's Den. There,

she claims she was grossly mistreated. Several men, she told the police, were conducted to the shack by her captors, and after they left her, she said she was locked in the place, a victim to her terrors and to hordes of mosquitoes. When she finally escaped from the shack, she is said to have met Holloway.

Finally, when she got back to Norfolk Saturday night, she was in such a despondent mood that she swallowed poison with the intention of ending her life, rather than have her parents and friends learn of what had befallen her in her absence from home.

Murray will be given a preliminary hearing before Justice Gilman at Ocean View tomorrow afternoon at 4 o'clock. Holloway and Miss Hill will be arraigned before Judge Day in the juvenile court tomorrow morning at 10 o'clock when the man will be turned over to the county authorities.

The girl's alleged offenses having been committed at Ocean View, the girl is charged with having been involved in said to have occurred in a Granby street hotel.

NAVAL HERO IS SUICIDE

PORTSMOUTH, N. H., Aug. 3.—Lieutenant William L. Hill, U. S. N., committed suicide today by shooting in the cemetery at the navy yard. Worry over ill health is believed to have been the cause.

Lieutenant Hill was aboard the U. S. S. Brooklyn with Rear Admiral Schley in the battle of Santiago in the war with Spain, and later was in command of the prison ship Southern and the Topeka. After retirement he served on special duty at the Portsmouth naval prison. He was cited many times for bravery and in 1909 was president of the National Association of Medal of Honor Men.

FRANCE TAKES UP ATHLETICS

PARIS, Aug. 4.—France, where before the war feminine athletics were virtually unknown, now has 10,000 enrolled girls and women competing in track and field events, and from this new army a team will be selected to represent the nation in the international games in Pershing stadium beginning August 19.

The international games may result in amalgamation of the two national football associations, organizations whose rivalry nearly disrupted plans for the meet, and with 120. The ministry of war is projecting plans for the combination.

Until May 1915 French women had never organized for athletics with the exception of horseback riding, tennis, hunting, and swimming. French women do not excel as sprinters but they are confident of their prowess in the middle-distance runs, and they have an exceptional performer in Madame Gourand-Morris in the weights.

300 PERISH IN WRECK

RIGA, Aug. 3.—Two hundred passengers perished when a five-car train was burned between Kiev and Scheptowka, says a report from Kiev today. Included among the victims were eight Jewish families, who were proceeding to join their group on the way to Palestine.

BANISH NERVOUSNESS

Wendell's Pills, Ambition Brand, For Run-Down, Tired-Out People

If you feel tired out, out of sorts, despondent, mentally or physically depressed, get a 50-cent box of Wendell's Pills, Ambition Brand, at Frank McFall's drug store, McFall's Drug & Seed store, today and take the first big step toward feeling better right away.

If you work too hard, smoke too much, or are nervous, Wendell's Pills, Ambition Brand, will make you feel better in three days or money back from Frank McFall's drug store, McFall's Drug & Seed store on the first box purchased.

As a treatment for afflictions of the nervous system, constipation, loss of appetite, sleeplessness, or Nervous Indigestion, get a box of Wendell's Pills, Ambition Brand, today on the money back plan.—adv.

Resplendent Future Luminaries Of Africa Dazzle Gotham

NEW YORK, Aug. 2.—His Supreme Excellency Marcus Garvey, "Provisional President of Africa" and president-general of the Universal Negro Improvement Association, enthroned in a dais and clad in a long velvet gown with red and green stripes, today called to order the annual convention of his association and proceeded with the preliminary work of reclamation for the negro.

A few hours later Garvey changed to a resplendent black navy uniform, adorned with red stripes and gold braid, topped off with a gold-covered admiral's hat, and he marched at the head of his admiring followers in a parade through the negro region of Harlem.

Directly behind him in the line of march was his supreme highness, the potentate and supreme commissioner of the Universal Negro Improvement Association, Gabriel Johnson, flanked by his highness, James R. Diggs, chaplain-general, and such lesser luminaries as the consul-general, surgeon-general and other general officers of the movement.

Trailing behind these dignitaries

were the plain people, but few wore so plain that they did not appear in uniform, and most of the uniforms—black, red or green—had gold braid and were not sparingly decorated.

Far in the rear were others not yet appointed to official positions. They stepped along, not to marching tunes, but to the more lively and capricious jazz air that their race has done so much to popularize.

And rough long lines of women and children, waving red and green flags, the parade marched. The police were out in force, but they had nothing to do, because a threatened outbreak against Garvey never materialized.

Garvey has been in difficulty recently about the funds of the Black Star Line, his steamship organization, with which he planned to carry the negroes back to Africa, and there was some talk before the convention began of opening old sores.

That some such move was considered possible was shown when His Highness the General Chaplain, rose to preach the convention sermon.

Chaplain Forestalls Anarchy.

The Chaplain-General began by defending the Supreme President-General, then he defended the movement, and finally he said emphatically:

"What if we have lost \$5,000,000? We haven't had very much experience yet. Look at the United States Government. After a hundred years' experience they have lost a billion and half in their shipping board operations."

The entire negro area of Harlem centered at Liberty Hall, where the convention met, until the parade started. Then it strung out along the principal streets to move back to the hall for the night session.

Flags covered the district, most of them red with a smattering of green, and every one of the 8,800 delegates—the convention gave that as the number—had flags which they waved at the slightest chance to show enthusiasm.

MT. EVEREST PARTY REACHES KALIMPONG

CALCUTTA, Aug. 3.—All the members of the Mount Everest climbing party have reached Kalimpong in safety. They are leaving today for Darjeeling.

The above cable rings down the curtain on the efforts of the expedition party organized by General Eddie in the early summer to scale the hitherto inaccessible heights of Mount Everest. While the efforts of the party have ended in what has been described as "a colossal failure," the members succeeded in lowering the record for high mountain climbing.

Until the present occasion this had remained for several years at 23,000 feet, but the Bruce party discovered that this record by reaching the height of 27,300 feet.

The extremely cold in the regions above 25,000 feet was largely responsible for the abandonment of the climb, the early breaking of the monsoon also playing an important part in the decision of the leaders. When it was found imperative to call a halt at the height of 27,300 feet, the intrepid adventurers were only 1700 feet from the unconquered summit.

DE WOLF MUST PAY WIFE'S LAWYER'S FEES

NEW YORK, Aug. 3.—De Wolf Hooper, actor, a musical comedy star, within the next five days, will have to pay \$9,500 to his fifth wife, Mrs. Edna Murray Hooper, who has sued him for absolute divorce in the Brooklyn Supreme court. This order, which was signed by Supreme Court Justice McCrate in Brooklyn today, also directs the actor to pay his wife \$5,000 for counsel fees and attorney of \$150 per week.

The order was signed, without notice to Mr. Hooper, upon the presentation of an affidavit by the plaintiff. According to this document the lump sum of \$5,000 is attorney of \$150 a week accrued since Mrs. Hooper alleged, an agreement was reached be-

Free to Asthma and Hay Fever Sufferers

Free Trial of a Method that Anyone Can Use Without Discomfort or Loss of Time.

We have a method for the control of asthma, and we want you to try it at no expense. No matter whether your case is of long standing or recent development, whether it is present as Chronic Asthma or Hay Fever, you should send for a free trial of our method. No matter what your age or occupation, if you are troubled with asthma or hay fever, our method should relieve you promptly.

We especially want to send it to those apparently hopeless cases, where all forms of inhalers, douches, opium preparations, fumes, "patent smokes," etc. have failed. We want to show everyone at our expense, that our method is designed to end all suffering from asthma, hay fever, and all those terrible paroxysms.

This free offer is too important to neglect a single day. Write now and begin the method at once. Do not delay. Simply mail coupon below. Do it today—you even do not pay postage.

Henry County Hit By Hail

Great Damage Done by Storm — Crops Slashed and Broken Down by Hail and Wind.

The hail storm which wrought havoc in Pittsylvania and part of Halifax county on Wednesday afternoon was followed yesterday afternoon by an equally destructive one extending roughly from Leaksville, N. C., vicinity up through Henry county.

It is impossible to estimate just what damage was actually done for the hail storm was erratic, missing small areas here and there. From Martinsville came the report that one hail storm came out of the northwest and extended as far as Aiken Summit. A second storm cloud went to the western part of Henry county.

A few samples of the vegetation lacerated by the hail were brought here today. Corn and tobacco leaves had been cut in ribbons and there were said to be fair samples of conditions in large fields of tobacco.

Probably the heaviest loss was sustained by Howard Bays, of Fishing, the largest grower of tobacco in Henry county. He has about forty acres of tobacco, which, until yesterday, promised to be exceptionally fine after being cured. In all he has \$25,000 worth of tobacco.

The full fury of the hail and wind was experienced there and Mr. Bays' loss is probably very heavy. It is understood, however, that he carries a large policy of hail insurance and probably his monetary loss will be less than smaller farmers whose tobacco is not actually ruined by the hail has greatly depreciated in value.

Reeves Brown, who has a farm this side of Martinsville, was another tobacco grower who is said to have suffered heavily. H. M. Land reports comparatively little loss.

One farmer who drove through the hail storm in his car found the tonneau of his car ankle deep in hail stones.

The hail storm lasted for about 20 minutes, being followed by a soaking rain. The drop in temperature suddenly experienced here yesterday afternoon indicated clearly that hail has fallen in this vicinity.

The age of North Carolina seems to have suffered equally as heavy as parts of Henry county. From Mt. Airy came the report that the hail there had been very violent.

The damage to tobacco comes at a most inopportune time and greatly discourages the farmers, many of whom were actually cutting tobacco and were looking forward to a good money crop owing to the unusual promise of tobacco at the peak of its growth.

Gloomy Outlook In Coal Region

(By The Associated Press.) CHICAGO, Aug. 4.—Canvases of the coal operators in the central competitive field, according to an announcement by representatives of the Illinois operators, indicated only district eight comprising about five per cent tonnage of the entire field would be present at the wage conference called for next Monday in Cleveland by John L. Lewis, international president of the miners local circles see little hope of a wage agreement.

Long Pins Hope To Official Count

(By The Associated Press.) ST. LOUIS, Mo., Aug. 4.—With Senator Reed leading by 6,687 votes, Breckinridge Log based his hope on the official count being made today to overcome the senator's plurality.

Davis' Political Bee Still Buzzing?

(Continued From Page One.) Davis appears quite content that he will be a candidate for office in 1924 and believe that the course of events of the next twelve months will determine whether he will run for the senatorship or for the seat in the House from the eighth Virginia district.

At present Congressman Moore is very strong in the eighth district and it is doubtful if Governor Davis could win the seat in the House from the eighth district. Mr. Moore has made a very enviable record in the House in the three years since he succeeded Congressman Charles C. Carlin. As a reward for his untiring service for his party in the House he has been given very desirable committee places.

He has entered into the thick of the political debates in the House during the past twelve months, and now takes a place with the Democratic leaders in the lower house. If the Democrats should succeed in November in regaining control of the House Mr. Moore will have a place as one of the counselors of party action in the House. By 1924 Mr. Moore may hold such a prominent place in the House that the people of the eighth district may well think it over before choosing another to succeed him.

Five Prisoners To Answer Charge

As result of an attempted jail delivery on Wednesday night which was nipped by Jailer Nelson Dixon, charges have been preferred against five prisoners, two of them charged with a felony. Warrants have been issued against Will Green, Richard Moss, Will Richards, J. G. Moss and Louis Parker. Jailer Dixon frustrated a delivery Wednesday night when he discovered that a bar had been partially sawed through, while he was making his regular inspection of the jail. Dixon decided to lay in wait outside the window and catch the men in the act. He had been there but a short time when a cove slipped and fell causing much commotion. Evidently this frightened the prisoners who were slowly sawing their way to freedom for they did not do any more that night. Whether enough evidence has been secured to connect at least four of the men, there is doubt as to Richards' guilt. Dixon questioned all of the men and claims that a confession was made by some of the men involved. The cutting was done with a pocket knife which has not been recovered.

Cabinet Members Discuss Strike

(By The Associated Press.) WASHINGTON, Aug. 4.—Members of the cabinet took today's morning session in the executive department. It was indicated that the session was given almost wholly to the discussion of the situation in these two industries.

Jap Toy Makers Have Hard Time

TOKIO, Aug. 4.—Hard times have hit the toy makers, dealers and the children of Japan. During the boom there were 500 celluloid toy factories in Tokyo and shops and peddlers did big business in Asakusa and other resorts about the city. Despite the fact that the toys are now sold at one-fourth their former prices, customers have become so scarce that factories are going into bankruptcy or out of business.

Bees Are Very Human Insects

(By The Associated Press.) NEW YORK, Aug. 4.—Ever since a bee census was ordered in Goshen, N. Y., metropolis of the buzzing honey makers, tender hearted persons have been seeing a bee couple. Mr. Thorndyke, who knows bees from atom to doated stern, said today that all the census takers have to do is count the hives.

"Even if they did have to number each bee, it wouldn't be so bad," he said. "Some men could count them one by one, never have to use a mask. Of course, a lot would depend on whether the bees were aristocratic bluebloods, or hybrids. The hybrids are usually the fiercer ones. Still, when it comes to setting intimate with bees, discretion is the better part of valor."

Girls with perfume and men who use hair oil, emelly pomades or scented talcum butter get out of the way when they see a bee couple. Mr. Thorndyke says. He has a theory that the little honey makers just naturally dislike certain odors. When a bee likes an odor it noses right in to gather raw material for its manufacturing plant, it turns its back to disagreeable smells. And when a bee turns its back, somebody is liable to experience discomfort.

Bees have domestic troubles, too, and these often put them in a bad humor. It is to ascertain how many of the baby bees at Goshen are suffering from "foul brood," and causing worry to their queen and their papa bees that the census was ordered.

Foul brood is something like summer complaint among human infants, but more devastating. It comes from impure food given during the period of incubation.

The adult bees are not bothered by the disease, as they are good food or bad. But when the queen gets sick, then the physical strain of weakness ultimately affects the whole hive.

Mosquitoes Drive Man To His Death

NEW YORK, Aug. 3.—Seeking relief from mosquitoes which prevented his going to sleep, Frank Schoenbrod, vice-president and general manager of the Clifton Textile company, took an overdose of veronal, a sleep-inducing powder, and was found dead in bed yesterday morning at his home, No. 157 Meade avenue, Passaic, N. J., by members of his family. He had taken veronal on several occasions. He had complained of heart trouble.

Mr. Schoenbrod, who was 48, was considered one of the finest silk designers in this country. He was born in Germany, married in France and came to the United States in 1907 to become general manager of the Van Raaite company's silk veil manufacturing plant in Paterson. A year ago he helped form the Clifton Textile company and became its vice-president. His wife and two daughters survive.

Chatham Bond Issue Carried By 76 Votes

CHATHAM, Aug. 3.—Chatham voted on a bond issue of \$12,000 for street improvement which was carried by a vote of 99 in its favor against 23 opposed.

In the earlier part of the year a bond issue of \$30,000 was lost by a large majority, this was to improve the water supply and the streets, but the citizens did not take to the idea of improving the water supply, believing that with care in using water and enforcing the ordinance against waste the supply was sufficient for a few years and thus far their belief has been sustained.

Thousand Men Are Battling Blazing Forest

(By The Associated Press.) LIOLANI, Aug. 4.—A thousand men are engaged in fighting fires from the Rocky Mountains in Montana to the Columbia river in Washington and up to one hundred miles from the Canadian border. Many hundreds acres of fine timber are being burned over.

Northcliffe Has Sinking Spell

(By The Associated Press.) LONDON, Aug. 4.—Great anxiety is felt today over the condition of Lord Northcliffe. There is some increase in his heart weakness and he is in a state of general exhaustion.

Chicago's Trolley Strike Deadlocked

(By The Associated Press.) CHICAGO, Aug. 4.—The fourth day of Chicago's street car strike saw both sides in an apparent deadlock over the terms of settlement. Meanwhile Mayor Thompson and the city council were considering plans for the purchase and operation of city-owned motor buses.

MODERN PLAYS IN ANCIENT RUIN

FLORENCE, Italy, Aug. 3.—The old Roman theatre at Fiesole will, this autumn, if present plans are carried out, be used again for the purpose it was originally designed for, as a theatre. It was originally built in the second century A. D. and will witness a series of plays, but this time its stone seats will be filled. It is hoped, by latter day tourists who will find interest in the novel idea, Gabriele Annunzio, giving his support to the project, and it is probable that one of his tragedies will be in the repertory.

This ruin of the days of Rome is beautifully located in the ancient Etruscan town that stands upon the olive-covered hills above Florence. It has admirable acoustic properties. Nineteen tiers of stone seats still remain in a semi-circle 37 yards in diameter, while just below them are three more tiers of stone seats used in older times by persons of rank.

It is proposed, beginning next September, to give performances every spring and autumn when the weather in Italy is particularly agreeable. In addition to the Annunzio classic tragedy, a melodrama, probably Orpheus by Monteverdi, and a drama from the pen of a modern Italian writer.

CROW FUNERAL ON SATURDAY

UNIONTOWN, Pa., August 3.—United States Senator William E. Crow, who died at his country home near here today, will be buried on Saturday afternoon. Funeral services will be held at the home and interment will be in Oak Grove cemetery here.

When the Fayette county court was formally notified of Senator Crow's death, adjournment was taken until Monday morning. A special meeting of the county bar association was called to arrange funeral details. Attorney E. W. Smith, of Pittsburgh, law partner of David A. Reed, made a memorial address before court adjourned. Reed probably will be appointed as Senator Crow's successor.

Charles Abramson is under \$100 bond as a material witness in the poisoning case of a New York in which he died and 60 became ill. He formerly was chef in the restaurant where the poisoned pie was eaten.

Trotter's Case Is Under Advisement After Month's Trial

GRAND RAPIDS, Mich.—Arguments of counsel in Mrs. Melvin E. Trotter's action for a decree of separate maintenance were completed here today. Judge M. L. Dunham in Superior court this afternoon.

The written opinion of the court, which is expected to go into many of the details of the case, will not be filed for some time. Judge Dunham indicated this afternoon. He will leave either today or Monday on a trip to northern Michigan for rest and recreation following 27 days' attention to the Trotter case.

When he returns he said he would dispose of a matter from Bay county before him for decision, then he will turn to the Trotter matter.

Lightning Kills Two Negroes Who Were Under Tree

WINCHESTER, Aug. 3.—Burley Banks and Murchell Hall, middle-aged negroes, one a preacher, were killed by lightning today during a storm in Clarke county.

They were working at a stone crusher when the storm broke and took refuge under a cedar tree, declining the foreman's request to go elsewhere.

When other workmen returned an hour later both were dead and the three splintered by lightning.

Thousand Men Are Battling Blazing Forest

(By The Associated Press.) LIOLANI, Aug. 4.—A thousand men are engaged in fighting fires from the Rocky Mountains in Montana to the Columbia river in Washington and up to one hundred miles from the Canadian border. Many hundreds acres of fine timber are being burned over.

Reed, made a memorial address before court adjourned. Reed probably will be appointed as Senator Crow's successor.

Greeks to Occupy Turkish Capital

Decisive Military Action Proposed In Order to Bring Peace and to Save the Lives of Christians.

(By The Associated Press.) ATHENS, Aug. 4.—Responding to the allied powers' note of July 31, the Greek government says it has decided to occupy Constantinople in order to bring peace by means of decisive military action against the Turkish capital. The reply reiterates that continued delay in the conclusion of peace will bring fresh bloodshed to the Christians in Asia Minor.

New Lifeboat Is Launched in London

(By The Associated Press.) LONDON, Aug. 4.—A new motor lifeboat said to be the largest and most powerful craft of the kind afloat, has been launched for the Royal National Lifeboat Institution. It is called the Harriet, Twin Screw.

Practically unsinkable, the Harriet Twin Screw has as many water-tight compartments as a modern battle cruiser. Her radius of action is anything up to 150 miles. She carries a life saving net, a line-throwing gun, and a searchlight. Her engines are two of the new six-cylinder 75 horsepower motors and it is said they will continue working even when completely submerged.

SWANSON IS FIFTEENTH ON SENATORIAL SENIORITY LIST

In the thirty years of Senator Claude A. Swanson's public life in Virginia and in Washington, he has met defeat only once. That was in 1901, when A. J. Montague later a member of the House of Representatives won the Democratic nomination for governor. And in all his years in public life, Senator Swanson has never won a more notable victory than that over Westmoreland Davis Tuesday, when he swept the stage by a majority exceeding 50,000.

Born in Swansonsville, Pittsylvania county, Claude A. Swanson attended the public schools until he was 16 years old. He taught school for one year and then attended Virginia Polytechnic Institute and also Randolph-Macon College and the University of Virginia, receiving a law degree from the latter. He practiced law in Chatham until 1892 when he was elected to the Fifty-third Congress, in which he took a seat the following year. Mr. Swanson was successfully re-elected to the Fifty-fourth, Fifty-fifth, Fifty-sixth, Fifty-seventh, Fifty-eighth and Fifty-ninth Congresses. He resigned from Congress in 1906 to take the governorship to which he was elected in 1905 after defeating William Hodges Mann and Joseph F. Willard for the nomination.

In 1910 Virginia's senator, John W. Daniel, died an Mr. Swanson was appointed to his successor in the executive mansion. Governor Mann to fill the vacancy during the remainder of the term, which expired March 4. Governor Mann reappointed him to serve until the general assembly met, when he defeated Carter Glass for the next six-year term. He was re-elected in 1916, for the term ending next March, without opposition.

Practically unsinkable, the Harriet Twin Screw has as many water-tight compartments as a modern battle cruiser. Her radius of action is anything up to 150 miles. She carries a life saving net, a line-throwing gun, and a searchlight. Her engines are two of the new six-cylinder 75 horsepower motors and it is said they will continue working even when completely submerged.

Born in Swansonsville, Pittsylvania county, Claude A. Swanson attended the public schools until he was 16 years old. He taught school for one year and then attended Virginia Polytechnic Institute and also Randolph-Macon College and the University of Virginia, receiving a law degree from the latter. He practiced law in Chatham until 1892 when he was elected to the Fifty-third Congress, in which he took a seat the following year. Mr. Swanson was successfully re-elected to the Fifty-fourth, Fifty-fifth, Fifty-sixth, Fifty-seventh, Fifty-eighth and Fifty-ninth Congresses. He resigned from Congress in 1906 to take the governorship to which he was elected in 1905 after defeating William Hodges Mann and Joseph F. Willard for the nomination.

In 1910 Virginia's senator, John W. Daniel, died an Mr. Swanson was appointed to his successor in the executive mansion. Governor Mann to fill the vacancy during the remainder of the term, which expired March 4. Governor Mann reappointed him to serve until the general assembly met, when he defeated Carter Glass for the next six-year term. He was re-elected in 1916, for the term ending next March, without opposition.

Senator Swanson is fifteenth on the senatorial seniority list, and seventh among the Democratic members. Those who outrank him on the Democratic side of the Senate are Culbertson of Texas, Simmons and Overman of North Carolina; Owen of Oklahoma; Fletcher of Florida; and Smith of South Carolina. The recent defeat of Senator Culbertson will place Mr. Swanson sixth among the Democrats in the sixty-eighth Congress. During the world war Senator Swanson was acting chairman and chairman of the naval appropriations committee, and would be chairman again in the event of a Democratic victory nationally.

Mr. and Mrs. William Wiley Bateman, who have been visiting Mr. and Mrs. E. M. Allen, have returned to their home at Frontl, N. C.

TEN-MINUTE RELIEF FOR INDIGESTION

Indigestion and its attendant ills, such as dyspepsia, heart-burn, sour stomach, griping pains, dysentery, diarrhoea, colic, cholera morbus, chronic constipation, gas, etc., and even sick, nervous headaches are now directly traceable to disorders in the digestive organs.

The food sour before it is fully digested, thus putting into solution toxic poisons that are absorbed into the system, irritating the intestines and setting up inflammation. To avoid this, you simply have to prevent fermentation by using Anti-Ferment.

Anti-Ferment neutralizes the acid condition of the stomach, cleanses and sweetens the bowels, soothes and heals the inflamed intestines and increases the flow of gastric juices, giving quick and certain relief. Get a bottle of Anti-Ferment from your druggist with a guarantee of satisfactory results or money returned. It will improve your appetite, give you restful sleep and make you feel better than you ever felt in your life.—adv.

408 Main St. Opposite Broadway

All Newark Stores Open Saturday Evenings To Accommodate Customers.

Sale Ends Tomorrow! \$1 for your old pen or pencil (any make) Final Wind-up!

Your Last Chance to Get the Parker at \$1 Below Standard Price

If You Turn in an Old Pen or Pencil

Tomorrow ends a sale that has made fountain pen history. Tomorrow for the last time you can pick out any plain, chased or gold mounted Parker "Lucky Curve" Pen at \$2.50 or up, and turn in an old pen or pencil for \$1.00 toward the purchase.

The Parker Pen Co. limited this sale to 7 days. When more pens arrive the sale will be over and the standard prices will again prevail here as elsewhere throughout the United States.

Come look at the prices plainly printed on each price-band and see for yourself that your old pen or pencil is as good as \$1.00 cash tomorrow toward any pen in this sale.

Sale Terms Are:

- 1—\$1.00 allowance for your old fountain pen or metal pencil toward the purchase of any Parker Pen in stock at \$2.50 or better.
- 2—All pens in this sale are brand new, in first class condition.
- 3—FREE Signed Accident Policy goes with every pen insuring it for one year against breakage, damage or unsatisfactory service in any way!

May Not Last Till Closing Time

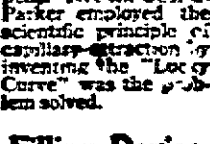

The remaining pens are fairly well assorted—but only a few—a very few remain. The earlier you come the more certain you are of obtaining exactly the point and style you want.

PATTERSON DRUG COMPANY

BRITISH NOTE
WILL CAUSE NO
POLICY CHANGE

PARIS, August 3.—(Associated Press.)—The official announcement of the American treasury department that the note of the Earl of Balfour regarding reparations would cause no change in the policy of the United States with respect to them caused no surprise in official circles in Paris, where the attitude of the United States government had been anticipated since the note was published.

Further, it has been learned that Lord Balfour's communication probably will have no effect on the detailed reparations plan which Premier Poincaré has drawn up for the London meeting next week. The French cabinet today having unanimously approved the premier's general plan for a settlement of the reparations and debts questions.

This plan, it is generally agreed, is to include a reduction in the total German indemnity in return for a proportionate cancellation of the French debt to Great Britain, priority to France on account of the devastated regions and the imposition of the strictest financial control upon Germany in order to insure payment of the reduced reparations bill and prevent the flight of capital from the country. Coupled with this is the fact that assurances must be given France that the international bankers will be able to arrange a substantial loan to Germany, to be

NOMINATE DEAD
MAN IN TENN.

NASHVILLE, Tenn., Aug. 3.—Despite the fact that he died yesterday, former Congressman Lemuel P. Padgett, of Columbia, has been nominated for Congress from the Seventh congressional district. He defeated his competitor, William C. Salmon, also of Columbia, by a majority of between 1,000 and 1,500 votes, according to incomplete and unofficial returns.

These returns show that the deceased congressman carried six of the ten counties in the district. The movement to nominate Mr. Padgett for his twelfth term, despite the fact that he is dead, took form yesterday afternoon, when his friends formed a hasty organization and made public appeal to vote for him.

What effect the nomination of the former congressman will have is problematical. The purpose of it was to force a new election and to permit other candidates to enter the race.

BORAH ATTACKS
BRITISH DEBTS
CANCELLATION

WASHINGTON, Aug. 3.—Great Britain's suggestion for cancellation of war debts drew sharp attack today for Senator Borah of Idaho, Republican member of the Senate foreign relations committee and leader of the Senate "irreconcilable" wing, who issued a statement declaring emphatically that any debt repudiation would have to be preceded by European disarmament. Senator Borah said the Balfour note to the allied nations which have been consoled in some quarters as containing such a suggestion really was intended for the United States.

The American people "could never be interested in any proposition for cancellation of any part of the debt to the United States unless by certain guarantees for practical disarmament, both by land and sea," Senator Borah asserted, adding that the disarmament program of the Washington arms conference had been "halted and crushed."

Charles Lucke, champion fly caster, landed the above catch in an angling contest at Lake Horatcong, N. J. You would hardly call her a poor fish, though. She's Blanche McHaffey who's so good looking that she's in the folios.

PROVISIONS OF WILL
NOT TO BE OBSERVED

PATERSON, N. J., Aug. 3.—The late Dr. J. J. Takamine, famous Japanese chemist, succeeded in his will two means of disposing of his body but neither will be carried out. First he desired that his body be offered to Dr. Makoto Harris of Chicago "for research and examination, particularly with regard to my liver, which was operated on 30 years ago." Should Dr. Harris not want the body, the chemist requested that it be cremated, and some of the ashes buried here and the rest in Japan.

Dr. Harris has declined to accept the body. It was learned today from J. J. Takamine, Jr., and it will not be cremated, because six weeks before his recent death, Dr. Takamine was baptized into the Catholic church, which is opposed to cremation. The will was drawn no a year ago.

The younger Takamine declined to discuss the matter further than to say that his father's remains have been buried in Woodlawn cemetery.

KITTELE IS RELIEVED.

WASHINGTON, Aug. 3.—Rear Admiral S. E. W. Kittelle has been ordered relieved from duty as governor of the Virgin Islands and to assume command of the destroyer forces of the Atlantic fleet. Acting Secretary Roosevelt announced today. Captain H. H. Hough, commanding the naval receiving ship at New York, will succeed Admiral Kittelle as governor of the islands.

CHILEAN CABINET OUT

SANTIAGO, Aug. 3.—The whole Chilean Cabinet resigned today, following yesterday's resignation of Armando Jaramillo, Minister of the Interior, and Angles Guearollo, Minister of Justice. The resignations were precipitated by resignations of the Government's policy concerning the recent protocol signed in Washington with Peru for settlement of the Tacna-Arica controversy.

Carlos Aldunate, Chile's signatory to the protocol, been called back to Santiago. It was learned today. The debate in the Senate on the Washington agreement ended without the taking of a vote of confidence. The main contention of those objecting to the protocol is that the Government did not consult the Senate before reaching the decision.

RESOLUTIONS DEFEATED

AT K. OF C. CONVENTION

ATLANTIC CITY, N. J., Aug. 3.—Every anti-Polish resolution introduced at the closing session of the fortieth convention of the Knights of Columbus was defeated tonight following an all day session in which vigorous speeches for and against the resolutions were reported. The debate in the Senate on the Washington agreement ended without the taking of a vote of confidence. The main contention of those objecting to the protocol is that the Government did not consult the Senate before reaching the decision.

RACING WAS MARRED

FORT MIAMI PARK, TOLEDO, O., August 3.—(Associated Press.)—The racing at the Grand Circuit track here this afternoon was marred by inclement weather. Only one heat of the feature event, the Elks' club stake, 2:05 trot, was raced when the rain caused postponement of the balance of the day's card. Four races will be on the program for next Saturday.

In the free for all pace, Johnny Quirk, driven by Fred Esan, nosed out Roy Grattan by winning in straight heats.

INCREASE PENSION RATES.

WASHINGTON, Aug. 3.—The Senate today passed with amendments the House bill granting an increase in pensions to the widows, dependent children and parents of veterans of the war with Spain, the Philippine insurrection and the Chinese boxer rebellion. No increase is given the veterans but the widows and dependent parents of the veterans the new rate of pension will be \$20 a month instead of the present \$12, while for children the pension will be \$4 per month instead of \$2.

Lady Astor Has
Novel Dry Bill
Not Like Volstead

PHILADELPHIA, Pa., Aug. 4.—The Philadelphia Public Ledger today prints the following official cable from London:

"Prohibition by a process of attrition faces England if the co-called 'popular control' bill introduced by Lady Astor, becomes law and is carried to a conclusion.

This measure, which has the support of the churches' temperance movement in England and many social workers, differs just as much as possible from the United States prohibition legislation, for there is nobody in this country who believes there is any chance that such legislation can be adopted.

Lady Astor's bill does not, like the American constitutional amendment, prohibit the manufacture and sale of liquor and leave the rest to enforcement of the legislation but it does deal with every phase of the question and seeks to meet all the objections that might be advanced by its opponents.

Broadly it provides for local option with compensation for the liquor trade. In the event the measure becomes law, elections are to be held every three years, at which the voters will be called upon to register their sentiments on three propositions: "no change," "Re-organization," and "no license."

The "Three Provisions" means that conditions stay as at present, the government board of control provided for under the act shall take over the liquor business with power to run the saloons, breweries, distilleries, or any business now carried under a license. "No license" means that the sale of liquor shall be abolished.

In the event a district registered its choice in the same manner at two succeeding polls there would be no election, and the measure would be applied unless demanded by five per cent. of the electors.

An important feature of the bill and a possible joker, however, is that it provides that once "no change" has been abandoned in favor of one of the other choices, return to the

private saloon may not be voted on again. The compensation feature of the measure is drawn to rob the liquor trade of the argument that it is being deprived of a living and provides for no drain on the tax payers. When the measure becomes a law, all liquor dealers in open sale, are to pay a fixed percentage of their annual profits to the board of control and a similar amount is to be deducted from the profits of all saloons operated by the board of control and any money remaining from state operation, after the expenses of the board have been met will also go to the compensation fund.

Compensation is to be based on the annual profits of the establishments for three years prior to the poll which forced them to turn their properties over to the state or go out of business, and a decreasing amount is to be paid if the saloons are voted out after a number of polls than if they are abolished after the first election on the ground that after the act goes into effect the owners should take warning of an approaching change in sentiment and make their own provisions for prohibition.

Fixes Age of Minors
Another reform embodied in the bill is increasing the age of persons to whom liquor may be sold, to 18. Regulations are provided for the sale of liquor in clubs and provision for a referendum on Sunday closing.

Lady Astor's bill therefore, although multitudinous, embodies the platform for which the churches announce they have been fighting, namely local option, increase of the age for sale to minors, control of clubs and Sunday closing, and the parliament will be prepared to pass such a measure and what strength the prohibitionists will be able to muster among the voters, are questions which nobody is ready to answer.

A humorous feature of the bill is that it provides that the act shall not apply to passenger vessels, but there must be no sale in territorial waters adjacent to no license areas and the shipping board's vessels may yet get in trouble for having a bar open too near the English coast.

Kentucky Will
Vote Tomorrow

(By The Associated Press.)

FRANKFORT, Ky., Aug. 4.—Ten Kentucky congressmen, eight of them Democrats and two Republicans will go before the voters in tomorrow's primaries asking for re-election. C. F. Ogden, of Anchorage, Republican, will not ask for his seat again from the voters of the fifth district and Maurice H. Thatcher, of Louisville, has no opposition at the primaries. This district is normally a Republican.

Political observers believe the political complexion of Kentucky's delegation in the next congress will be about the same as it has been for two years. R. E. Thompson, Democrat, in the third district is unopposed tomorrow, but probably will have a stiff fight in November. Three Republicans are seeking the nomination in this district and in the past it has been a political battleground as the voters are about evenly divided as to political affiliation.

Political battles are not on the stage this year as many of the candidates have no opposition in their districts and there are no Republican candidates in the sixth and seventh districts.

The eight Democratic incumbents have opposition for renomination in only the seventh and eighth districts while John M. Robinson, the Republican incumbent from the eleventh district is unopposed for renomination.

John W. Langley, of Pikeville, the Republican incumbent from the tenth district, has one opponent, Fess Whitaker, widely known as the "jail-bait" of Letcher county, who, while serving as jailer in Letcher county, served a sentence in his own jail after conviction on charges of turning out prisoners charged with a felony and of bootlegging and assault.

While still in jail Mr. Whitaker announced as a candidate to fill out the unexpired term of Sam Collins, county judge, who resigned to become a state prohibition director. He was

elected and while serving in that office he was elected for Congress.

Following is the list of candidates for nomination in tomorrow's primaries.

First district—Alben W. Barkley, Paducah, Democrat, (incumbent) unopposed; F. M. McCain, Mayfield, Republican, unopposed.

Second district—David H. Kirchloe, Madisonville, Democrat, (incumbent) unopposed; George W. Jolly, Owensboro, Republican, unopposed.

Third district—R. Y. Thomas, Jr., Central City, Democrat, (incumbent) unopposed; Marmaduke B. Bowden, Russellville, W. O. Moats, Morgantown and R. M. Amos, Olmstead, Republican, unopposed.

Fourth district—Ben Johnson, of Bardonia, Democrat, (incumbent) unopposed; R. H. McMullin, Leitchfield, Republican, unopposed.

Fifth district—Kenneth E. Lewis, Valley Station, Democrat, unopposed; Maurice H. Thatcher, Louisville, Republican, unopposed.

Sixth district—Arthur B. Rouse, Covington, Democrat, (incumbent) unopposed. No Republican candidates.

Seventh district—R. E. Murphy, Lexington and J. Campbell Cantrell, Georgetown, (incumbent) Democrats. No Republican candidates.

Eighth district—Kenneth E. Gilbert, Shelbyville, Democrat, (incumbent) unopposed; D. H. Kincaid, Danville and Ed. Hubbard, Lancaster, Republican, unopposed.

Ninth district—W. J. Fields, Olive Hill, (incumbent); William T. Cole, Greenup; R. G. Buckler, Prater, and H. C. Duffy, Cynthiana, Democrats; J. H. Stricklin, Insko; Trumbo Snedden, Weaving, and George Osborn, Russell, Republicans.

Tenth district—K. L. Varney, Canada, and F. Tom Hatcher, Pikeville, Democrats; John W. Langley, (incumbent) Pikeville and Fess Whitaker, Blackey, Republicans.

Eleventh district—Clarence J. Sipple, London, Democrat, unopposed; J. M. Robinson, Barbourville, Republican, (incumbent).

I could have very easily killed him had I wished." He then added that his lawyer, John McEwan, of No. 170 Broadway, had been instructed to sue the city of New York for \$50,000 for false arrest and libel. He had also demanded a front page apology from a local newspaper.

The Prince said he was a graduate physician and a graduate of Oxford university. Just now he and his wife are forced, he mentioned, to get along in their apartment house on \$400 a month, most of his money having been tied up by litigation. Already he said, he has spent \$120,000 in this country.

When interviewed he wore a white shirt, corduroy riding trousers having a gold braid down each side, "regulation" puttees.

"I shall make the city pay dearly for these days in jail. I am a Bourbon and a Frenchman, as you can imagine how I feel. No sir," he added, "I'll make the city pay for this, if it costs me \$100,000."

Wild West Game
Is Nearly Fatal

SOUTH BOSTON, Va., Aug. 4.—Hill Clay, the six-year-old son of Mr. and Mrs. W. C. Clay, is at the Halcyon hospital with a bullet wound in his forehead as the result of the accidental discharge of a pistol in the hands of Thomas Neathery, aged 13. The two boys in company with several other lads, were in the basement of T. F. DeJarnett's home on Logan street, where they were playing "wild west," and among other paraphernalia they had provided themselves with a pistol of ancient model. One of the younger boys picked up this weapon and was told to put it down and young Neathery, who is 13 years old and the son of Mr. and Mrs. T. M. Neathery, took it from him. As he did so the weapon was discharged the bullet apparently striking the wall of ceiling and deflecting on to young Clay's forehead, where it ploughed a furrow across the frontal bone, inflicting a deep wound, but fortunately failing to penetrate very deep.

From all accounts, another boy was between the Clay lad and young Neathery, so that the bullet evidently did not strike him directly. He was rushed to the hospital where Dr. Selt, after an x-ray examination, found only a small portion of the bullet had imbedded itself in the skull and the young boy is now resting well and will no doubt be out in a few days. It is said that the cartridge was fired from a pistol unknown to the boys. The young Neathery had been prostrated over the accident, of which he was the innocent cause.

Personals

—Mrs. Cora A. Hewin of Anderson, S. C., is visiting at the home of her daughter, Mrs. H. H. Parker, Park street.

—Mrs. S. E. Hughes, Miss Annie Hickey, Miss Ramey Hamlin and Mr. Keppel left today, motoring to Asheville, N. C.

—Miss Claudia Patrick of Richmond is the guest of Mr. and Mrs. W. G. Higgins.

—Mrs. James D. Harrison, who was operated upon yesterday at General hospital, is resting well.

—Miss Daisy Coyle and Miss Edna Cook, of Gaffney, S. C., are visiting their grandmother and aunt, Mrs. M. E. Walters, 244 Park avenue.

—Miss Gladys Blankenship has returned to her home here, from the University of Virginia, where she has been for the past six weeks attending summer school.

THRONELESS "KING OF FRANCE"
TO SUE FOR FALSE ARREST

NEW YORK, Aug. 3.—A tall boyish man with full pink cheeks and bright eyes, looking not a day over 25, stepped into the rather dismal hall of the apartments at No. 329 West 56th street yesterday afternoon, and said he was Prince Louis Henri de Bussicux de Bussicux de Bourbon.

There was nothing foreign about him, nor had he a sign of an accent.

"Yes," he said, "I am the first prince of Egan's line of my line, and the first of the Bourbons to have ever been in a cell. Were France a monarchy today, I should be King Louis XIX."

The prince was being questioned about his arrest Sunday night. He spent two days in jail for having, so the police testified, threatened to run his sword through one of the detectives raiding apartments in the house of Magistrate Simpson in the West Side Court, "honorably discharged him yesterday and reprimanded the police."

Being shown here and there by moving men with trunks the "first Prince of France" told a bit of his life.

"I have been fourteen years in the Russian army, and later was chief of

the bodyguard of the late Czar Nicholas. I have, 'the thought worth adding, 'some fifty-three decorations and orders from every country in the world. The pope—the late one—sent me the highest order which he gave—the Order of the Golden Fleece—for having protected various Catholic churches in Russia.

When I led the Russian army into Persia I was at the head of my troops. I have been five times wounded, there being a silver plate in my skull and the muscles of my left arm are paralyzed. The late pope also presented me with a dog, one I would not part with for—'I wouldn't part with."

The young man said he was born in France in 1885 and told of his being a Major General in the Russian army. He has not yet retired, he said.

"I wore my uniform, for it was my intention to call upon your district attorney and tell him of the treatment accorded me by the police. It would have been a formal call, so I donned my uniform. We do that in Europe. As for threatening the man (a detective) with my rater, why, I draw my rapier within half a second.
